## Answers

1. Did you know that bats are mammals? We know they are mammals just like us because they are warm blooded. They are the only mammals that know how to fly. Bats are nocturnal which means they sleep during the day and are awake at night.

2. Bees are interesting animals. The honey bee can fly at a speed of 15 miles per hour. A hive of honey bees has about 40,000 bees in it. The honey bee has five eyes. A worker bee will make 1/12th of a teaspoon of honey over its lifetime. Bees have been making honey for about 150 million years.

3. Did you know that a person can live without food for more than a whole month? A person can only live for about one week without water. We need water more than we need food. 97 % of earth's water is in the oceans. Just 3 % of the earth's water can be used for drinking water. 75 % of the world's fresh water is frozen in the north and south polar ice caps.

4. January 21, 1976, was an historic day. On that day, two supersonic Concorde aircraft made their first flights. One took off from London and the other from Paris. Later that year, the first Concorde flew to New York. The flight from London to New York took about three hours. Other planes took twice the time to make that flight! The fleet of Concordes was retired in 2003. Over the years, the planes had carried more than 2.5 million passengers.

5. Do you know where the longest road on Earth can be found? The Pan-American Highway begins in Alaska. It passes through Canada, the United States and Mexico. Then it continues down the west coast of South America all the way to Chile. Altogether, the highway passes through 12 countries. It passes through jungles and mountains. The road is about 16,000 miles long. At this time, only one 54-mile stretch of the road remains to be completed.

6. Are you familiar with the work of Marie Curie? Born in Warsaw, Poland, on November 7, 1867, Curie was a chemist and physicist. She and her husband, Pierre, won the Nobel Prize in 1903 for their discovery of the element radium. In 1911, Marie became the first person to win the Nobel Prize twice. She won the second award for her study of radioactivity. Marie died in 1934 from cancer caused by her long contact with radiation
